

## Package number 1 – DIY Hosting & Emails

Our DIY Hosting and Emails package provides you with your domain name. Giving you up to three personalised email addresses and the option to manually upload your content to your domain.

To have a personalised email address you need to own a domain name, so for example our domain name for PA Design is pa-design.co.uk. This enables us to make our email address, for example [joe.blogs@pa-design.co.uk](mailto:joe.blogs@pa-design.co.uk)

Three personalised email addresses are included as standard in this package but you can add as many as you like for an extra £5 per address.

We will assist in setting up your emails across all platforms and devices.

If you require it, we can provide you with an FTP login so you can upload files or a pre-made website (if you have one) to your domain name.

As part of the package, support will be available for email or server issues. We provide this either over the phone or by email. This means that you have the peace of mind that your domain name and emails are in safe hands.

## Package number 2 - Website Design

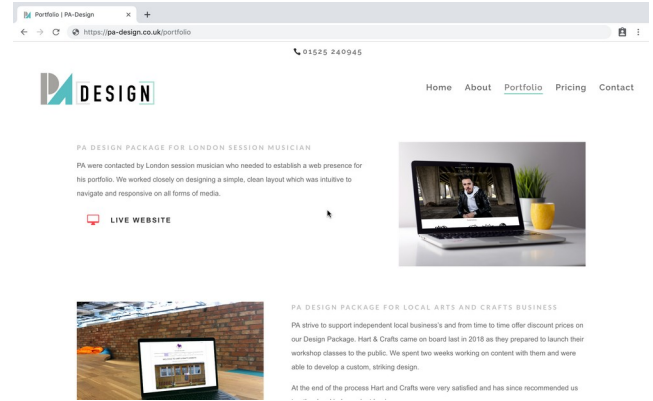

If you already have a hosted domain name and are just looking to upgrade your website then our website only design package might be perfect for you.

We use WordPress to build all our websites as we believe it is an intuitive and simple platform to work with.

We will have a meeting to discuss your requirements after which we will create a custom design for you.

Five pages are included in the design as standard. Additional pages are charged at £10 per page.

Once we have completed the design we will send over the website files to you.

WordPress gives you a personal login to your website which means you can manage and update your site at your leisure.

Training is not included in this package but you can add this if required. It is charged at £15 per hour plus any travel costs.

If you require a domain name to host your website on, training on how to use WordPress or both see page 3 for a more suitable package.

## Package number 3 – Combination

The Combination Package is our most popular package and is the best value for money if you require both emails and a website. It incorporates packages 1 & 2.

By choosing this package you gain access to up to 15 custom email addresses, Search Engine Optimisation (SEO), training on website management which covers up to three people for a 3-hour training tutorial (If more training is required then it is charged at £15 per hour plus any travel costs).

The combination package also gives you a £150 discount off the cost of the website design!

As part of the package, support will be available for website, email or server issues. We provide this either over the phone or by email. We also make regular backups of your website and emails, so you can be sure that everything is safe and secure.

### Price & Summary:
